

Coyote Creek Country Club

San Jose, CA

BMG
INC • AIA
Architecture &
Planning

Coyote Creek Country Club was developed as a new facility at an existing golf course in San Jose, CA. BMG Inc. AIA worked with architect Arnold Savrann and Castle & Cooke, Inc. on this project. The building was enhanced by the extensive stencil and historically themed mural work of John Wulbrandt.

BMG has worked with Mr. Savrann and Castle & Cooke on four other country clubs nationwide. Other projects include Keene's Pointe, Orlando, FL, Saddle Creek, Stockton, CA and Pueblo del Sol Country Club, Sierra Vista, AZ. These projects serve as foundations of major residential developments in each location. Each club is located on a newly built Jack Nicholas golf course.
