

Pueblo Del Sol Golf Clubhouse

Sierra Vista, AZ

BMG
INC • AIA
Architecture &
Planning

Pueblo Del Sol Golf Clubhouse is the first of a series of projects BMG Inc. AIA worked on for the Castle & Cooke Company. This project is located on a Nicholas golf course and is the anchor for 1,000 new homes in the development. We collaborated with architect Arnold Savrann, who provided the schematic design of the building.

Pueblo Del Sol is about 11,200 sf in size and includes a large meeting room, restaurant, men's grille and golf pro shop as well as locker rooms. The building was extensively decorated with stenciling and murals done by John Wulbrant, a well known artist on the west coast.
